

Dear whoever it may concern at the garden centre,

We have a problem and need your help! We at High Spen Primary are having a problem with cats using our new gardening area as a litter tray. We really want to encourage our children to plant and grow many things however this is becoming impossible due to the problem. We worry about germs spreading and need our children to play safely in this area. We know it may concern you to donate things to us for free but we promise we'd make the use of them and use them responsibly - we could maybe even open our gardening group back up for children to help plant the new flowers and look after them!

Dear whoever it may concern at the garden centre,  
We are asking for donations of 50cm pots with compost (we would love about 12 please.) Plus, a selection of plants that would deter cats. We hear that Lemongrass, Rosemary and Lavendar are good but we'd value your thoughts on what is good to keep cats out!

If you feel like you could help us, we would very much appreciate it.

You can contact Miss Bullerwell on 01207542373 or [highspen@gatedu.org](mailto:highspen@gatedu.org)

We look forward to hearing from you soon, thank you for your time.

Yours Faithfully,

Ayda Y3  
Eadie Y3
